He called upon United States District Attorney Garner and demanded that warrants be issued for the arrest of forty Chinese. He offered to pay the charges for their deportation. Garter showed Mr. O'Donnell a telegram from Attorney General Olney instructing him not to arrest any Chinese until further orders. O'Donnell offered then to deposit \$40,000 for deportation purposes, but was told that the local officials could not receive it. O'Donnell then visited Circuit Judge McKenna who declined to discuss the matter.

Changed It's Topography.

Washisoron, May 28. Major Davis, chief of the war records office, has just returned from Gettysburg, where, by direction of the secretary of war, he made an investigation of the effect upon the battle lines and points of interest of the construction of electric railroads. Major Davis found that the damage to the battlefield had all been done, as the work of excavation and filling in is practically completed. About four miles of the railread are laid with rails and the remainder of the route is ready for final grading. The greatest injury has been inflicted in one stretch of about two miles of route which runs in front of Bloody Angle and Death Valley and skirts Round Top. Major Davis' report will be accompanied by accurate charts and sketches, and will be confined to a statement of the actual condition of af-fairs on the battleffeid. It can hardly go farther, in view of the fact that the government has no property rights in

KORAN FOR AMERICA.

edans Will Establish Circles in the United States.

Mohammedans Will Establish Circles in the United States.

New York, May 28.—Alex Russell Webb, the United States consul who four years ago embraced the religion of Mohammed, and who represents the Mohammedans in the United States, in an interview today stated that a large number of Mohammedans are planning to emigrate from India to the United States, and that they will probably form colonies in several of the southern states. For several weeks past Mr. Webb has been in communication with large property holders south, notably in Georgia and Florida. He declares that he is acting under the authority of many of the most prominent and wealthy Mohammedans in India in obtaining prices on large tracts of southern land. He has secured figures on large strips of land and has already reported these prices to a syndicate of Mohammedans, who are interested in the movement. The idea of the wealthier and more prominent Mohammedans was said by Mr. Webb to be to form in every town and city of the United States circles to study the Mohammedan religion. The primary purpose is not, however to seek converts, but to soften the prejudices of christians in America against the great religion of India. Already three of these circles have been established, two in New York city and one in Woodbridge, New Jersey. Charters have been applied for by these societies, and it is believed that many more circles will shortly be in operation. "I am in negotiation," he added, "with responsible men for the purchase of large tracts of land in Jacksonville, Pensacola and Augusta and in Alabama. The setlers understand the purpose to which the land will be put, and say that the neighbors will probably offer no objections whatever. I have so reported to the syndicate for which I am acting. The Mohammedans are valuable workmen in many industries."
